INDEX to Proceedings
AMERICAN CONCRETE INSTITUTE

VOLUME 63—1966

From JOURNAL OF THE AMERICAN CONCRETE INSTITUTE, Proceedings V. 63, January 1966 to December 1966 and Part 2 June 1967

Original contributions to the JOURNAL OF THE AMERICAN CONCRETE INSTITUTE—Papers, reports, and discussion—are indexed in three categories:

1. Title ..... **Dunes hotel project in Las Vegas, The (63-3) Paul Rogers Jan. 1966** 83

2. Author ..... **Rogers, Paul — The Dunes hotel project in Las Vegas (63-3) Jan. 1966** 83

3. Subject ..... **Earthquake resistance — Multistory building — Dunes hotel (63-3) Jan. 1966** 83

Numbers in parentheses with each entry constitute the title number of the paper. The first portion indicates the number of the *Proceedings* volume (in this case V. 63) in which the topic appears. The month and year indicate the JOURNAL issue. Page numbers of both *Proceedings* and JOURNAL are the same.

Problems and Practices items and original material appearing in the Current Reviews section carry an identifying (63-P&P) or (63-CR) wherever they are entered in the index.

Durability — Recommendations for achieving — Abstract, Monograph No. 3 (63-CR) May 1966 613

The index to Current Reviews published in this volume begins on p. 1637.

The index to technical material published in the "News Letter" sections (not a part of or bound with the *Proceedings*) is found on p. 1647. This index is included for the convenience of readers who retain the monthly issues.

ACI Proceedings V. 63 is complete with Part 2 June JOURNAL — How to assemble

When JOURNALS for January 1966 through December 1966 are pulled apart (after removing wire stitches), and covers, masthead (page just inside front cover), and News Letter sections are all discarded, remaining parts may be assembled with the parts of Part 2 June to complete Proceedings V. 63.

Start with title page and contents taken from Part 2 and follow with the issues separated as noted above from January to December in chronological order. Then add discussion pages and indexes taken from this Part 2.
